
POSITIONS AVAILABLE

**GRADUATE OF ARCHITECTURE /
BUILDING DESIGNER**

You have had ideally two years of local practice experience. You are proficient in the use of ArchiCAD, and enjoy harnessing technology to express ideas. You possess good design skills and technical ability together with excellent communication and presentation skills. You are diligent, meticulous and have a great appetite for learning.

This position will place you neck-deep into whole-of-practice involvement - from concept development, design development, marketing, client/consultant relationships, to detailed documentation and through the entire construction process.
